BUTTE FALLS

HIGH SCHOOL

CLASS OF

1942-1943

# FOREWORD

BY THE PRINCIPAL

We are living in strange times and under abnormal conditions. Ten millions of our men and boys are in the armed forces of our Country, fighting and preparing to fight, that our national existence and our way of life may continue. Other millions are devoting their labor to essential war industries. We are being called upon to give up many things which we once considered necessary. "We are being called upon to change our ways of living and thinking--all to one end, "That we may defeat Germany, Japan, and the axis aggressors".

Our schools will also show this changed condition. There is a shortage of over fifty thousand teachers. Those who remain will carry heavier loads and give unselfishly of their time and labor. Students will have to assume more responsibilities, cooperate more readily, prepare lessons more thoroughly, and be ready to sacrifice cheerfully for the common cause. For OUR SCHOOLS MUST GO ON--THEY MUST NOT BREAK DOWN ! The High School Students of Today will be the men and women who will have to rebuild our Country after this war is over.

This Guide Book is to be the written expression of "how" we will do our part. It is not complete and will be added to from time to time. We ask you to keep it, read it carefully and add pages as they are supplied you.

## BASIC RULES

A decided degree of order is necessary to maintain the morale and permit efficient work in a school. It is our aim to make only such rules as are necessary to prevent confusion, safeguard the students and permit each student to do his work in a satisfactory manner. The following basic rules are recognized by Standard Class B schools of the state. They are modified or added to as local conditions warrant. Every student is expected to cooperate in their observance without friction.

1. The building will be open at 8:30 A. M.
2. One room will be reserved as a special study room for those who wish to study before school and at noon. This room will be kept quiet.
3. In the general study hall pupils will be permitted to whisper, not more than one at a time, and students shall not sit at the desk with those to whom they are speaking. Conversations are to be brief. There will be no unnecessary noises or disturbances in this room while school is in session. Students may leave the room by signing name, destination on the blank provided on the teacher's desk. Upon return the time shall also be recorded on the blank. Not more than one student may be out of the room except by special permission of the teacher. The teacher is in full charge of the room and students are expected to observe the usual rules of courtesy. In case it is necessary to conduct recitations in the room the same should be carried on as quietly as possible. REMEMBER THAT THE STUDY HALL IS A PLACE TO STUDY.
4. Students may stand in the halls and corridors before school and at noon for the purpose of getting warm or drying clothes but running, skating and rough conduct is not permitted except on special occasions. Please be careful about marring walls with muddy shoes or hands.
5. Students may leave the grounds at noon, after lunch, by receiving permission from the teacher in charge. This privilege is not to be abused. Smoking and profanity are not permitted on the school premises during school hours. Students who smoke are requested not to smoke in the immediate vicinity of the school.
6. Students are not permitted to enter the furnace room without special permission.
7. Paper should be deposited in the waste baskets and not on the floor, grounds or street. The floors should be kept clear of paper and chalk at all times.
8. There will be three minute intermission between class bells. Students will pass promptly from one class to another. Teachers will note the time and have assignments made so that there will be no delay. Students will leave the class rooms in an orderly manner upon signal from the teacher. If tardy to class it will be necessary to report to the advisor at close of school.
9. Cutting class, or school, without permission is not necessary. If you have a legitimate reason for leaving apply to the class teacher or principal and you will be given an absence permit. Attendance will be checked in every class and study hall period. Students who are absent from class or study hall without permission will not be readmitted until satisfactory arrangements are made.

10. The Bus Driver is in full charge of the bus and has full authority to make and enforce such rules as are necessary. Profanity, moving about the bus while in motion are among the things prohibited.

The rules above are basic. They are based on principles of courtesy and efficiency. There are other things which are not done in well regulated high schools. A spirit of cooperation and responsibility will make our school plant run smoothly.

#### EXEMPTIONS.

Students may be exempt from final examinations provided they have no unexcused absences or tardiness and have no six-week grades in the subject lower than 2-.Citizenship grade must be satisfactory.

#### MUSIC.

Individual

Band practice and individual instruction will be given on Tuesday. Students will be excused from regular classes when necessary to attend instruction. Work missed must be made up as directed by teacher.

#### MAKE-UP

Anyone having make-up work to do must remain in the study hall the 7th period, except by special arrangement with the teacher.

#### SCHOOL NIGHTS.

School parties, play practice, etc. will adjourn not later than 9:30 P.M. except with special permission of the principal. We wish the parents to know that you are not being deprived of your regular rest or sleep. Teachers can assume no responsibility for private parties.

#### ABSENCES.

Absences greatly interfere with high grade of school work. It also endangers the standardization of your school. Credit cannot be granted for work which you miss unless it is made up. Avoid being absent unnecessarily. If absent, go to the office for an admittance slip immediately upon your return. Present the slip to the class instructor for admittance to class.

#### SPECIAL WAR COURSES.

Pre-Aviation, Shorthand, typing, wireless code, etc. are offered post-graduates, and others who can profit thereby. Insofar as our time and facilities will permit. This is the teachers' contribution to the cause. If interested we invite you to see the principal who will cooperate wherever possible.
